- IT & Infrastructure Support

4. Product(s) of organization:

As you are a part of our academy, products are professional IT courses (Both online and offline)

5. Role and Responsibility:

As a web development intern at Synnefo Solutions, I'll code, debug, test, collaborate, and learn new technologies.

6. How would you rate the internship

- Excellent

7. How inspired were you by the educator?

- Excellent

8. How much did you like the sessions attended?

- Excellent

9. Do you feel like you learned something new?

Yes! Every day, I'm learning new things about web development, whether it's coding techniques, debugging skills, or best practices.

10. Would you like to ask/know/tell us anything?

I'd love to share insights on modern web development trends—happy to discuss!

11. Tell us your overall feedback for the Internship and your suggestions, if any.

The internship has been a great learning experience, helping me improve my web development skills and understand real-world projects. The team is supportive, and the work environment is encouraging. One suggestion would be to have more hands-on sessions and mentorship opportunities to enhance learning further.
